TGM - HTBLuVA Wien XX
IT Department

Diploma Thesis
RoboNav

Version: May 25, 2015 at 15:49

Contents

1 Introduction **1**
- 1.1 Navigation with mobile robots . . . 1
  - 1.1.1 Determine a feasible exact position . . . 1
  - 1.1.2 Navigation strategies for mobile vehicle . . . 3
- 1.2 The Project "RoboNav" . . . 4
- 1.3 Project Management . . . 6
  - 1.3.1 Scrum . . . 6
  - 1.3.2 Roles . . . 6
  - 1.3.3 Artefacts and Sprints . . . 6

2 System design **7**
- 2.1 Domain model . . . 7
- 2.2 Component Overview . . . 9
  - 2.2.1 Robotino v3 . . . 9
  - 2.2.2 Overhead Camera (an Android Smartphone) . . . 11

3 RoboNav Communication Protocol (RNCP) **12**
- 3.1 Protocol Specification . . . 13
- 3.2 Implementation of the Transmission . . . 15
  - 3.2.1 Contributed Entities . . . 17
  - 3.2.2 RNCPPacket . . . 20
- 3.3 Using RNCP . . . 21

4 RoboNav Control **24**
- 4.1 Controlling the interaction between the components . . . 24
- 4.2 Path planning . . . 27
  - 4.2.1 Internal Area Representation . . . 27
  - 4.2.2 Graph Based Representation . . . 28
  - 4.2.3 Robot Integration . . . 29
  - 4.2.4 Calculating the Shortest Path . . . 31
  - 4.2.5 Demo and Profiling of the Path Finding Algorithm . . . 34
  - 4.2.6 Implementation of the Path Planning System . . . 35

5 Image Retrieval and Processing **37**
- 5.1 Retrieving an Image . . . 38
- 5.2 Analysing Images . . . 39
  - 5.2.1 Algorithms and Functions . . . 39
  - 5.2.2 Design and Implementation . . . 45
- 5.3 Object Classification . . . 47
  - 5.3.1 Obstacles . . . 47
  - 5.3.2 Robot detection . . . 49

6 Interacting with the Robotino v3 **53**
6.1 Java API . . . 54
6.2 Communication with the Robotino . . . 56
6.3 Path-driving functionality . . . 57
6.3.1 High-level path-driving of the Robonav Control with Java . . . 57
6.3.2 Controlling the path driver's actions . . . 59
6.3.3 Low-level path-driving on the Robotino using RobotinoView . . . 62
6.3.4 New path logic . . . 62
6.3.5 Path driving . . . 64
6.3.6 Emergency and controlled Stops . . . 65
6.4 Integration of the System into Robotino View . . . 66
6.5 Adjustment of the coordinate systems . . . 67

7 RoboNav Overview **69**
7.1 Design of RoboNav Overview . . . 69
7.2 Startup Configuration of RoboNav Overview . . . 69
7.3 Main Window of RoboNav Overview . . . 71

8 Conclusio and Outlook **73**

9 Appendix **i**
9.1 Glossaries . . . i
9.2 Figures . . . ii
9.3 Listings . . . iii
9.4 Sources . . . iv
9.5 Scrum contract . . . vi
9.6 UML . . . xii
9.7 Installation manual . . . xiii
9.7.1 Requirements . . . xiii
9.7.2 Deploying the RoboNav System . . . xiv
9.7.3 Running/Using the RoboNav System . . . xiv
